Information notes

⁽¹⁾ Our key target in respect of the service of indictments reflects the legislative requirement on COPFS to serve an indictment on all accused within very strict time limits. Failure to adhere to the time limits has very serious consequences and can, in certain circumstances, prevent the prosecution going ahead. The time limits vary according to the court in which the accused will be tried and whether the accused is on bail or remanded in custody. This key target is focused on demonstrating that we prepare solemn cases in accordance with these strict time limits. Her Majesty's Chief Inspector of Prosecutions in Scotland has recommended that we ensure that all High Court bail indictments are served no later than 7 days before timebar. This supports the target of having no cases timebar before service of indictment is achieved in any case.

⁽²⁾ A key target in the investigation of deaths is that where a death requires further investigation, we will conduct the investigation and advise the next of kin of the result within 12 weeks of the death being reported to the Procurator Fiscal. Many of these deaths require a post mortem examination to be conducted. The examination process includes toxicological analysis. Pathologists are unable to conclude their examinations and submit their final reports to COPFS until they receive the toxicology results.

Since February 2019 COPFS has experienced delays in the provision of toxicology by service providers. As a result, there have been delays in the provision of pathologists' final reports to COPFS and the conclusion of investigations. Performance against target has therefore reduced.

COPFS continues to liaise with toxicology service providers to ensure that toxicology is provided within the required timescales

⁽³⁾ Following a review, a revised target for criminal allegations against the police was introduced from 1 July 2021. Performance achieved in 2021-22 relates to the period from 1 July onwards only.
